Toronto

Dear Mr. President,

One of the sessional appointments in the Department of Household Science has not yet been filled. Will you kindly ask the Board of Governors to grant you authority to negotiate with someone to fill this vacancy.

Hoping this will be possible,

I am,

Yours sincerely

Annie L. Laird

November 9th, 1917

Miss Laird,

Department of Household Science,

Toronto.

Dear Miss Laird:

Yesterday at the meeting of the Board of Governors Dr. Reeve's gift of a prize in the Department of Household Science in memory of Mrs. Reeve was accepted.

We would like to attach the following to the announcement of the prize in the Calendar:

"This prize is intended to perpetuate the memory of a true helpmate whose unselfishness enabled the donor the better to discharge his duty to his Alma Mater".

Will you be kind enough to look after the insertion of this in the Calendar ?

Yours sincerely,

President.

November 21, 1917.

Sir Robert Falconer,
President, University of Toronto,
Toronto.

Dear Mr. President:

It is advisable that we should secure the services of another thoroughly capable instructor for this Department, and this seems possible now that the income for one year from the bequest of the late Mrs. Treble for the Department of Household Science is available. Part of this income is to be used for salaries of additional teachers of Household Science, and I recommend that an additional instructor be appointed for the Easter Term of this Session, the salary for the term to be Eight hundred dollars.

Yours sincerely,

Annie L. Laird

Toronto

Dear Mr. President,

Quite a number of our graduates were in the city last week attending the meetings of the O. E. A., and as for some time we have felt it would be advisable to have an association including all the Household Science graduates, I took the opportunity of calling as many as possible together and making the suggestion. They all seemed very pleased with the idea and decided to organize. They elected me as their Honorary President and Miss Scott as President. We discussed a suitable name and the one chosen was "The Household Science Association of the University of Toronto." I said we would have to ask permission to use this name and hence Miss Scott's letter. We think it will be an excellent way to keep our graduates interested and in touch with the work here.

Yours sincerely
Annie L. Laird
